The American Rock Garden Society

IF YOU WISH INFORMATION concerning rock and alpine plants, both American and Foreign, and if you wish practical information on the subject of rock gardening, you should join the *American Rock Garden Society*. This organization is truly North American in scope. It deals intelligently with varying climatic conditions in different sections of the country and concerns itself with the practical matters of garden construction, plant selections and culture, as well as the esthetic ones of proper design.

There are three classes of membership: Active, \$3.50 annually; Sustaining, \$10.00 annually; Life, \$100.00. All members receive monthly the *GARDENERS' CHRONICLE*, which is the official organ, and all other publications which the Society may issue from time to time. Checks drawn to the order of the Society may be sent to the Secretary, Dorothy Ebel Hansell, 522 Fifth Avenue, New York City. Mrs. Hansell will gladly send to prospective members, a full list of the officers and a copy of the Constitution.

PLANTING AND CULTURE

All rock plants require firm planting, good drainage and stone chips over the surface of the soil and under the foliage. The rare and diminutive types of alpiners should have a section to themselves to prevent the encroachment of plants of a more robust or rampant nature. Most alpiners should be cut back after the blooming period is past which will ensure a second bloom in many species. While not absolutely necessary, a light covering of salt hay should be placed over the rock garden in winter in climates where cold frosty winds prevail and there is no protecting blanket of snow. In spring a top dressing of sand and leaf soil is very beneficial, adding lime for plants which require it.

**A CAREFUL PERUSAL OF OUR CATALOGUE WILL
ENABLE YOU TO MAKE A SELECTION OF PLANTS
WHICH WILL PRODUCE A PROFUSION OF BLOOM
AT CERTAIN SEASONS, OR CONTINUOUS BLOOM.**

This catalogue includes only a partial number of the many species and varieties of alpine and rock plants which we can supply, and, in case you do not find the plants you desire listed, kindly write us your requirements.

**WE HAVE A TRAINED GROUP OF MEN, WHO ARE
THOROUGHLY EXPERIENCED IN THE CONSTRUCTION OF
ROCK GARDENS, AND THE BUILDING OF
PLANTED WALLS, POOLS, AND JAPANESE GARDENS.
ADVICE GIVEN FREELY ON THESE SUBJECTS.**

We strive to the best of our knowledge and ability to have our plants true to name, but cannot be held responsible in case mistakes sometimes occur.

TERMS OF SALE

Sufficient money must be added to order to cover cost of postage.

Our terms are strictly cash, but we will ship C. O. D. provided 25% of the amount of the order is remitted.

Plants leave our nurseries in fine, healthy condition. All plants are inspected and carefully packed according to the best methods to insure safe transportation.

We cannot be liable for cases of failure due to transportation or other causes.

No complaints will be considered that are not made within ten days after receipt of shipment.

	each	10 for
ABELIA — Grandiflora. Lovely evergreen shrub. Pale pink flowers. All summer.	\$1.00	
ACAENA		
Argentea. Blue grey foliage and red burr-like flowers. Good carpeter.	30c	2.50
Glauc. Good carpeter for spring bulbs. Finely cut blue foliage. Sun or shade.	25c	2.00

foliage in autumn. 12 in. Arctic regions. 25c 2.00

Coreanum. Profusion of pink and white flowers with
golden centers. Autumn. Korea. 30c 2.50

Pink Cushion. (*Azalea Flowered Chrysanthemum*). A new
and quite sensational plant. Single plants have been known
to have as many as 1500 rose-colored flowers open at one
time. It blooms from August until late frost. Dwarf and
very hardy. 50c

CHRYSOPSIS—Villosa. A small shrublet of semi-procumbent
habit. Grey foliage with clouds of yellow Asters in summer
over a long season. A valuable addition to the rock garden
and sunny walls. Sandy soil and sun. N. A. 40c

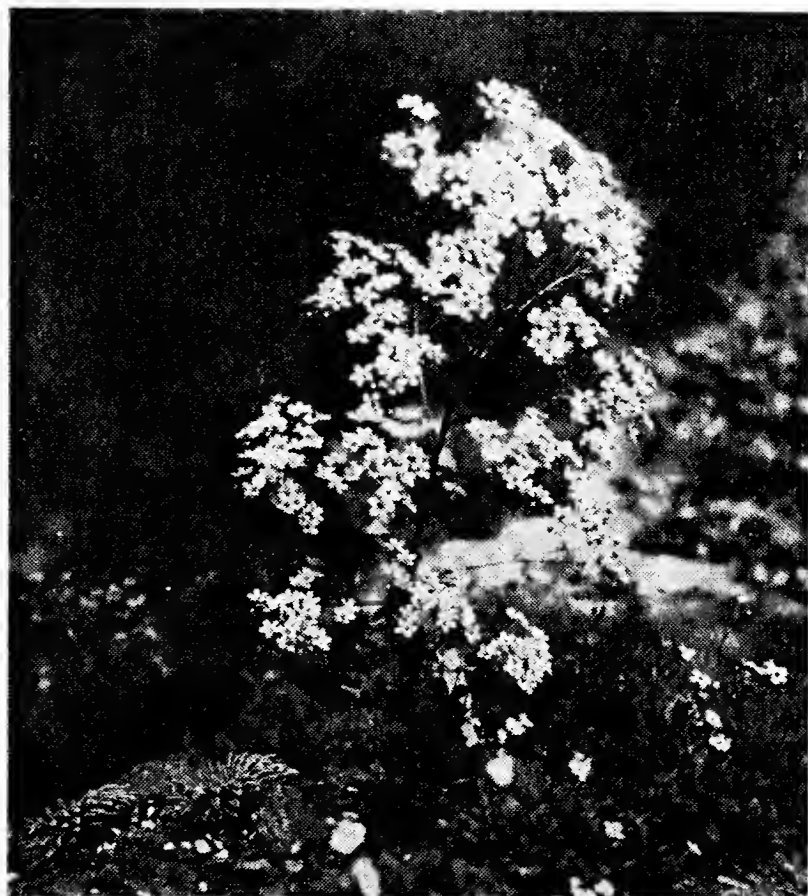

CHRYSOPSIS—Villosa Prostrata. A small plant with silvery
trailing stems and large yellow flowers in late summer and
autumn. New and unusual. N. A. 50c

CLEMATIS—These beautiful Clematis have delicate foliage
which dies down in winter. They are most effective planted
near evergreens in the background of the rock garden. Their
twining stems and gorgeous blossoms show to great ad-
vantage on pines and other evergreen trees. They do best
in rich loam and **no lime**. In autumn mulch with manure.
The following list will carry bloom from early spring until
late autumn. Blooming size.

Baron Veillard. Pink. \$1.00

Duchess of Edinburgh. Double White. \$1.00

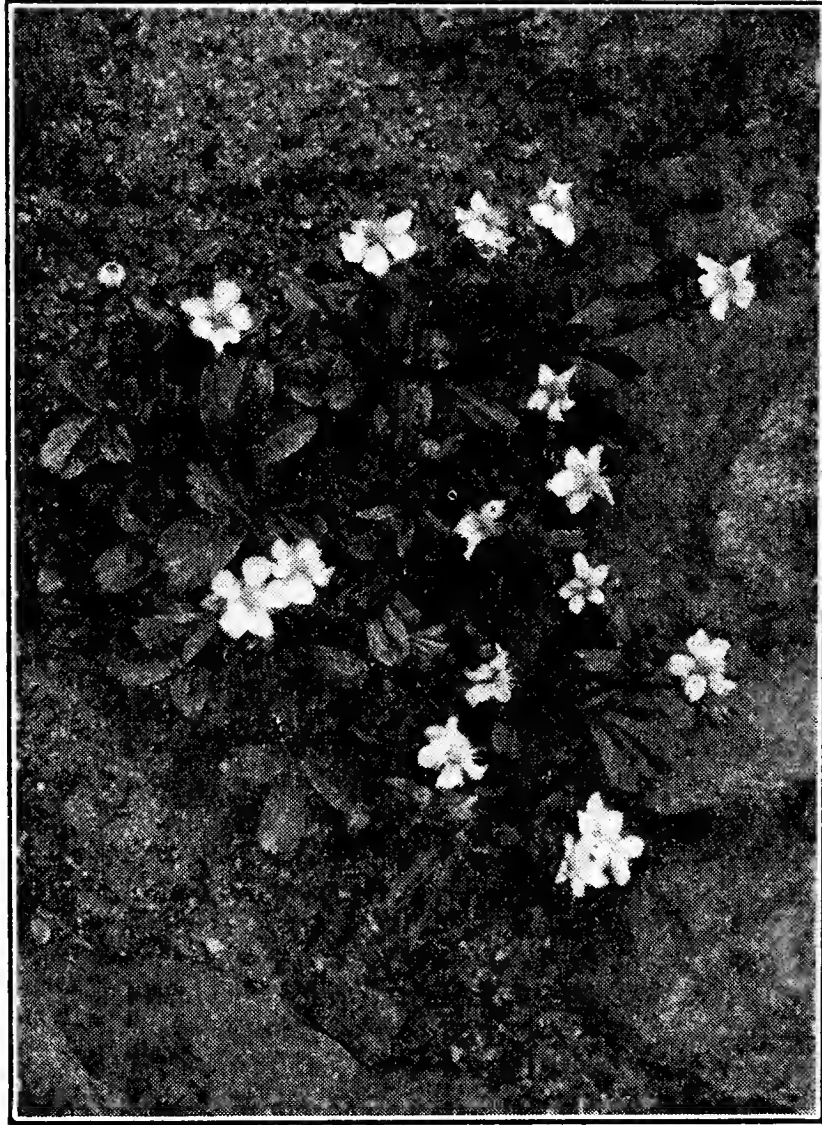

No heart within the rock, you say?
When natures' garlands them adorn,
Where beauty sings from early morn,
And rainbows—brighten all the day

Saxifraga Cotyledon Pyramidalis

ANOTHER YEAR has passed and again we wish to express our sincere appreciation to the many gardening friends who have helped to make our nurseries a success.

In this catalogue you will find many plants listed for the first time which come from all parts of the world. Our aim is to test all Alpine and Rock Plants which are new and rare; to discard the mediocre and to offer our customers only plants of high quality which will add beauty to their gardens.

Potentilla Tridentata

ON ACCOUNT of intensive propagation we are enabled to give our customers the benefit of new low prices on plants of merit and high quality. Please note plants which carry bloom throughout the summer and autumn.

	each	10 for
Gypsy Queen. Rich purple.	\$1.00	
Henryi. Enormous flowers of glistening white.	\$1.00	
Jackmannii. Lavender.	\$1.00	
Mme. Edw. Andre. Fuchsia color.	\$1.00	
Ramona. A lovely shade of powder blue.	\$1.00	

Cronamere Rock Garden

CONVOLVULUS—These hardy Morning Glories are a great addition to the sunny rock garden.

Cantabricus. A hardy trailing species with soft rose flowers on 6 in. stems. For sunny well drained location. An unusual and attractive plant. 50c

Mauritanicus. Mats of beautiful foliage covered with large powder blue flowers from spring until frost. Should be in every rock garden. Needs winter protection. 35c

Nuttallianus. Silvery grey tufted foliage and large glistening pale pink flowers in early spring. Not invasive and entirely hardy. A gem. 50c

CORYDALIS

Cheilanthesifolia. Attractive finely divided foliage and clear yellow flowers. Summer. 12 in. A good rock plant. 35c

Lutea. The best of the family. Ferny foliage and golden blossoms. All summer and autumn. 8 in. Shade. 35c

COTONEASTER

Dammeri. A dwarf. Fine trailer over rocks. Pretty glossy leaves and pale pink flowers followed by coral red berries. Spring. China. \$1.00

Dammeri Radicans. One of E. H. Wilson's finds in China. Entirely prostrate, rooting from the branches. Small evergreen shining foliage. Pearly white flowers followed by bright red berries. Dwarf form. \$1.00

Microphylla. A beautiful dwarf of low spreading habit. Dainty little pink and white flowers followed later by small scarlet berries. Invaluable for clothing large stones in the rock garden. Himalayas. 24 in. \$1.00

COTULA—Squalida. An attractive carpenter with small ferny evergreen foliage. 3 in. Shade. New Zealand. 25c

CRAWFURDIA—Trinervis. (Creeping Gentian). Pale blue Gentian flowers followed by pretty red berries in winter. Summer. Shade. Japan. 75c

CRUCIANELLA — Stylosa. Bright green prostrate foliage. Heads of rose colored flowers. Persia. 25c

CYCLAMEN — These dwarf Cyclamen are entirely hardy. Should be planted in leaf soil and shade.

Europaeum. Leaves handsomely marbled and veined in white. Flowers from pale pink to deep rose. Late summer. Fragrant. \$1.00

Neapolitanum. Marbled foliage and flowers which vary in color from pure white to rich pink. Charming and easily grown. \$1.00

Repandum. Leaves of thinner texture and pink flowers borne in spring. \$1.00

CYTISUS—(See Genistas).

DAPHNE—Cneorum. (The Garland Flower). An evergreen shrub covering itself in spring and again in autumn with lovely pink flowers, which fill the air with fragrance.
\$1.25 and \$2.50

DASYSTEPHANA — Porphyrio. Narrow foliage and 5 in. stems, carrying large trumpet shaped blossoms of brilliant blue. The latest Gentian to bloom in autumn and one of the loveliest. N. A. 50c

DELPHINIUM

Cashmerianum. Dwarf form. Blue flowers tinted with lavender. Long season. Sun or shade. 35c

Chinense. Dwarf form with finely cut foliage, and blue flowers nearly all summer. 25c

2.00

Cineraria. A beauty from Tibet having large spurless flowers of brilliant blue. 10 in. 50c

Tatsiense. Pretty species with sapphire blue flowers. China. Rare. 40c

Tom Thumb. Fine dwarf hybrid. Neat habit of growth and a long succession of large lavender blue flowers. 35c

DIANTHUS—Require full sun and sandy loam.

Alpinus. Close growing little mats of dark green foliage. Large rosy flowers on 2 in. stems. True form. Switzerland. 40c

Arvernensis. Silvery tufts and sweet scented rosy pink flowers. 3 in. France. 35c

Beatrix. A hybrid having double flowers of pale pink. All summer. 6 in. A great favorite. 35c

Campestris. Masses of bright green foliage. Pink blossoms. 35c

Carthusianorum. Clustered heads of rosy pink blossoms. 25c

Deltoides Bowles Variety. A remarkably fine thing. Bronzy foliage and rich crimson flowers. 25c

Deltoides Brilliant. Masses of trailing foliage. Crimson flowers. Spring. N. A. 25c

Deltoides Utrecht. An improved Deltoides type. 25c

Fruticosus. Brilliant pink flowers. Rare. Crete. 50c

Graniticus. Silvery cushions with small starry pink flowers. 6 in. Pyrenees. 35c

Grisebachii. Trailing plant with charming rosy pink flowers. 50c

Microleptis. New. An alpine gem of dwarf and compact habit. Lovely pink flowers. Spring. Thrace. 50c

Montanus. A fine type having grey foliage and large crimson flowers. Spring 40c

Monticola. Unusually large deeply fringed rosy flowers. 6 in. A beautiful type from Japan. **New.** 40c

- each 10 for
- Neglectus.** True form. Small grassy tufts. Bright pink flowers with a buff reverse. 4 in. 35c
- Petraeus.** Mat forming variety with fragrant white flowers. Spring. Europe. 30c
- Plumarius.** Silvery grey mats. Flowers rose, lavender, white, and parti-colored. 25c
- Richardi.** A small trailer with rosy pink blossoms. Rare. 35c
- Roysii.** One of the finest. Cushions of silvery foliage covered in summer with unusually large rosy blossoms. 75c

Dianthus

- Seguieri.** Fine pink flowers flecked with purple. Summer. 40c
- Squarrosus.** A small edition of D. Superbus with dainty white fragrant flowers. Spring. 35c
- Subacaulis.** Tiny blue-grey tufts and stemless flowers of rich carmine. 1 in. Spain. 50c
- Sundermannii.** Rare Macedonian species making very large close growing mats. Fringy white flowers in spring. A favorite. 50c
- Superbus.** One of the most beautiful of the family with very large lacy blossoms of pale lavender. Fragrant. Europe. 40c

each 10 for

DICENTRA

Formosa. Fernlike foliage. Graceful arching stems with drooping pink flowers all summer. 18 in. Sun or shade.

N. A. 35c

Oregana Glauca. Silvery foliage and glistening white flowers. Spring. Rare and fine. N. A. 50c

DIPSACUS—Inermis. Prickly herb of thistle-like aspect. Large pale lavender blossoms. Europe. 35c

DIPLARRHENA—Morea. An exceedingly beautiful plant from Australia belonging to the Iris family. Glistening white flowers pencilled with blue. Golden center. 12 in. Very rare and fine. \$1.00

DODECATHEON—Meadia. (Shooting Stars). Flowers vary from white to soft rose. 18 in. Early spring. 25c

DORONICUM

Caucasicum. Large yellow blossoms on 2 ft. stems. 35c

Mme. Mason. Large golden blossoms in spring. Dwarf form. 50c

DRABA

Aizoides. Neat tufts of bright green little rosettes. Yellow flowers. Spring. Sun and sandy soil. 40c

Carinthiaca. Small rosettes of green. White flowers in early spring. 35c

Fladnizensis. A high alpine cushion plant covered with white flowers in spring. 3 in. Sun. 25c 2.00

Glacialis. Similar to D. Alpina. Attractive foliage edged with white. Bright golden blossoms on short stems. **New** .. 50c

Hirta. Narrow green leaves and pure white flowers. 6 in. Spring. Eurasia. 35c 3.00

Johannis. Mat forming plant covered in spring with myriads of white flowers. 3 in. 35c 3.00

Olympica. Dark green foliage. Sprays of pretty yellow flowers. Partial shade. Europe. 50c

DRACOCEPHALUM—Japonicum. A beautiful mat forming plant with finely cut foliage and a profusion of lovely lavender flowers all summer. Choice. 50c

DRYAS

Octopetala. One of the most charming dwarf shrubs for the rock garden, forming evergreen carpets of small oak leaves bedecked with glistening white flowers in spring followed by silvery whorls of fluffy seeds. 50c

Sundermanni. Mat forming foliage. Fine white flowers followed by attractive seed pods. Spring. 35c

EDRAIANTHUS—Dalmaticus. (Wahlenbergia Dalmatica). A rare treasure having small tufts of grassy foliage and large clusters of lovely blue bells. Europe. 75c

each 10 for

EPIGAEA — Repens. (Trailing Arbutus). Prostrate foliage. Clusters of sweetly scented waxy pink flowers. Leaf soil. Shade. 30c

Epigaea Repens

EPIMEDIUM

Bicolorum. Dainty racemes of rosy short spurred flowers. Fine foliage plants for shady corners. 50c

Micranthum. A rather large and handsome form with creamy yellow long spurred flowers and bronzy foliage. 12 in. Spring. 50c

Mixed. These plants have beautiful foliage; their autumn tints are quite lovely. They should be planted in shade and leaf soil. The flowers vary in color from lavender to pink and yellow. 35c

Pinnatum Elegans. Flowers larger than the type in bright yellow colorings. Summer. Caucasus. 50c

ERICA—Partial shade, sand, and peat soil.

Carnea. (The Alpine Forest Heath). An invaluable winter flowering dwarf shrub which should be planted in wide masses. Rosy bells in the greatest profusion. 10 in. high. 35c

Carnea Alba. A rare little Heath covered with white bells in winter. \$1.00

Compacta Nana. A slow growing compact dwarf with charming pink bells. Summer. 9 in. high. 50c

each 10 for

- Mediterranea.** Dense little bushes with rich rosy red flowers. Early spring. Needs protection in the north. 35c
- Stricta.** Dark green foliage. Clusters of drooping rosy pink flowers. Corsica. 50c
- Tetralix.** Large bells of soft pink in terminal clusters. 12 in. tall. 50c
- Vagans.** (The Cornish Heather). Lavender flowers in late summer. 35c
- Vagans Alba.** White flowering form of the above. 50c
- Vulgaris.** (Calluna Vulgaris). Profusion of lavender pink blossoms in late summer. 50c
- Vulgaris Variegata Aurea.** A handsome plant with golden foliage touched with red in the winter. Lilac pink flowers. 35c
- Vulgaris Searlei.** One of the best of the white forms. Very free flowering. 50c
- ERIGERON**—These plants are a great addition to the rock garden, furnishing a profusion of bloom over a long season. Sandy soil and sun.
- Alpinus.** A rare dwarf high alpine with soft pink Daisy-like flowers. 3 in. 25c
- Caespitosus.** A dwarf form with attractive foliage and rather large white rayed flowers. Rare. 40c
- Caucasicus.** Low tufted plant with a profusion of lavender flowers in summer. 30c
- Compositus.** A dainty little plant with ferny grey foliage and lovely little Daisies of palest lavender. 2 in. 35c
- Elatior.** Large lavender flowers. Long season of bloom. 35c
- Filifolius. New.** A small perennial Daisy of great charm from the mid-west. Spring. N. A. 35c
- Glabellus.** Large violet flowers on foot high stems. 25c
- Linearis.** Mats of foliage with trailing stems, covered with pale lavender Daisies all summer. 25c
- Macranthus.** Large purple flowers. Long season. 25c
- Mesa Grande.** One of the best for the rock garden and front of the border. Large lavender Daisies on 8 in. stems in early summer. Long season. 35c
- Mucronatus.** Dainty green foliage and small pink and white Daisies. A persistent bloomer all summer and autumn. Winter protection in the north. 35c
- Multiradiatus Rescus.** Himalayan species. A rare dwarf having large narrow rayed flowers of mauve pink. 35c
- Speciosus.** Large violet rayed flowers on 18 in. stems. Long season. 30c

ERIOPHYLLUM

- Caespitosum.** (Oregon Sunshine). A mass of beautiful silvery grey foliage covered in summer with brilliant golden flowers. An excellent plant for sunny walls and to cover large rocks. Full sun. Sandy loam. N. A. 35c

each 10 for

Pedunculatum. A dwarf shrubby plant with woolly foliage and a profusion of bright golden flowers. Summer. N. A. 12 in. 50c

Cronamere Rock Garden

ERODIUM

Chamaedryoides Roseum. A miniature alpine forming small mats of dainty scalloped foliage with fascinating little rosy flowers on 2 in. stems nine months of the year. This is always in demand for semi-shady spots in the rock garden. 50c

Corsicum. Charming little rosettes of downy leaves covered with pink flowers most of the summer. Very dwarf in habit. Sun. Sandy soil. \$1.00

Macradenum. Pretty soft green foliage. Pale mauve flowers with large purple spots on two upper petals. Sun. Pyrenees. 50c

Manescavi. (Heron's Bill). Attractive foliage and showy fuchsia colored blossoms all summer and autumn. 14 in. Pyrenees. 45c

Trichomanefolium. Deeply cut ferny foliage and a profusion of large rosy pink flowers. 75c

ERPETION—Reniforme. (Viola Reniformis). A dainty little dwarf with lovely violet and white flowers. Needs protection in winter. 35c

each 10 for

ERYSIMUM — Pumilum. A tiny plant with rosetted foliage crowned with golden flowers in spring. 35c

EUONYMUS—(Winter Creeper).

Kewensis. A miniature vine with tiny evergreen leaves. Very effective over large rocks. 35c

3.00

Radicans. Small evergreen vine for banks and walls. 40c

Radicans Variegatus. An attractive little climbing plant with grey and white foliage. Useful over large rocks or planted at the base of trees. 50c

Speciosus. A dwarf shrublet with shining dark green foliage. Rare. 50c

Speciosus Var. Silver Queen. A slow growing miniature shrublet of compact habit with charming variegated foliage. Rare. 75c

EUPHORBIA—Full sun and poor sandy soil.

Cyparissias. Many yellow flower bracts during May and June. 8 in. 25c

Myrsinites. An unusual and showy plant having trailing stems of seafoam blue colored foliage terminating in showy heads of golden yellow. Spring. 30c

2.50

Polychroma. Very symmetrical habit. Yellow flowers in early Summer. 12 in. 30c

2.50

FESTUCA — Glauca. Dwarf. Blue-grey tufted grass. Quite pretty for rock gardens and around pools. 8 in. 25c

2.00

FRAGARIA—Daltoniana. New. A Himalayan species of distinction, with rather large glossy evergreen leaves and large glistening white flowers. The foliage takes on beautiful color in winter. 50c

FUCHSIA—Gracilis. A fascinating dwarf with upright slender branches bearing a long succession of ruby and violet colored blossoms. Needs winter protection. 30c

2.50

GALPINSIA — Lavandulaefolia. A very showy plant with golden flowers. Long season of bloom. 10 in. N. A. 40c

GAULTHERIA — Procumbens. (Creeping Wintergreen). A charming little creeper with glossy leaves turning red in winter. The white urn-shaped flowers are followed by bright red berries. 4 in. Shade. 25c

GENISTA—(Broom). Excellent wall plants or for sunny rock gardens.

Dalmatica. A small Broom with bright golden flowers. About 3 in. 75c

Firefly. (Cytisus). A most effective plant having flowers of golden yellow, crimson, and bronze. Long season. Very choice and rare. \$1.25

Praecox. (The Cream Broom). Finely branched compact shrub covered with charming cream colored blossoms in early spring. 75c

each 10 for

- Purpureus.** (Cytisus). (Purple Broom). A low growing deciduous shrub which covers itself with purple flowers in early spring. A massed planting of these makes a handsome effect. \$1.00
- Sagittalis.** (The Arrow Broom). A dwarf prostrate species with stems curiously winged like an arrow. Brilliant golden flowers. May to July. 50c
- Scoparius.** (Cytisus). A yellow Broom with very effective bright golden blossoms. Thrives in poor soil in sun. \$1.25
- Tinctoria.** Long sprays of golden flowers in summer. 2 ft. 50c
- Tinctoria. Fl. Pl.** An almost prostrate form densely covered with golden yellow double flowers. Summer. 50c
- Tinctoria Prostrata.** Similar to preceding. A horizontal form with long shoots clothed in yellow blossoms. \$1.00

*Genista Sagittalis*

GENTIANA—(Gentian). Gentians require firm planting in rich sandy loam. Partial shade.

Acaulis. The famous Gentian of the Swiss Alps. Large brilliant sapphire blue trumpets covering mats of dark green pointed foliage. Blooms in spring with a few scattered blossoms again in autumn. 75c

Acaulis Gigantea. New. A hybrid of the above. Exceedingly large trumpets of dazzling blue. A gorgeous plant of high quality. 85c

each 10 for

- Altaica.** A low-growing species with short trailing stems and handsome violet blue trumpets. Early summer. 50c
- Andrewsii.** Closed Gentian. Dark blue flowers. 18 in. N. A. 25c
- Cruciata.** Clusters of dark blue flowers on 12 in. stems. Late summer. 30c
- Dahurica.** A rare species from Asia with umbels of dark blue flowers. 50c
- Farreri.** One of the most beautiful of all Gentians. Semi-prostrate habit and grassy foliage. Lovely sky-blue trumpets throughout late summer and autumn. 4 in. Tibet. Peat and shade. \$1.00

*Gentiana Acaulis*

- Freyniana.** A low growing form with short trailing shoots set with pairs of dark glossy leaves and ending in two or three large bells of bright blue. 6 in. 75c
- Hascombensis.** This enchanting new hybrid is like a glorified *G. Septemfida* producing larger and much more floriferous heads of bloom on 12 in. stems. The flowers are a bright blue speckled with white toward the base. This Gentian received an Award of Merit from the Royal Horticultural Society. **New.** \$1.00
- Kesselringii.** A Siberian plant with large clusters of curious tubular flowers which are white, dotted with violet on the outside. **New.** 75c
- Lagodechiana.** An extremely fine plant having large blue clustered flowers which are speckled inside with tiny white dots. 4 in. Summer. 40c
- Phlogifolia.** A beautiful Gentian from Transylvania with large clusters of brilliant blue flowers in June. 6 to 9 in. 50c

3.50

	each	10 for
Purdomi. A plant from Tibet with narrow pairs of dark green leaves and large trumpets varying from lavender to deep blue. 4 in.	50c	
Przewalskyi. Low-growing variety. Farrer calls this "One of the loveliest of Gentians" with "Clusters of the most splendid big azure goblets."	75c	
Rochellii. Heads of large blue trumpet shaped blossoms on leafy 2 in. stems. Very fine and rare. Midsummer.	50c	4.50
Saponaria. A handsome moisture loving Gentian with wide open brilliant blue bells. 9 in. N. A.	50c	4.50
Septemfida. Leafy procumbent tufts with large bells of sapphire blue.	50c	
Straminea. A rather curious species from Siberia with pale golden flowers.	50c	
Walujewi. A strong growing plant from Turkestan. Large white flowers dotted inside with blue. A splendid plant for the wild garden.	35c	3.00

Geranium Sanguineum Lancastriense

GERANIUM—The ornamental foliage and lovely blossoms of the hardy Geraniums make them valuable subjects for the rock garden or border. They require light porous soil and full sun.

Argenteum. A gem from the Eastern Alps. Pretty little tufts of glistening silver and large flowers of apple blossom pink. 3 in. Summer. Lime. 65c

each 10 for

Cinereum. Another small *Geranium* resembling *G. Argenteum* in foliage and blossom, only slightly larger. 6 in. Pyrenees. 75c

Endressi. A lovely Pyrenean species requiring partial shade. Clear rose flowers over long season. 12 in. 60c

Ibericum. Fine blue flowers on 18 in. stems. Rich foliage tufts in autumn. 'Caucasus'. 35c

Macrorrhizum. Fragrant foliage richly colored in autumn and rosy lavender flowers. 9 in. 35c

Platypetalum. Masses of large purple flowers on 18 in. stems. All summer. China. 50c

Pratense. (English Cranebill). Large flowers of soft lavender blue. 18 in. 30c

Pratense Album. Very handsome white form of the above. 35c

Pyrenaicum. Attractive foliage and masses of purple flowers. 9 to 12 in. Great Britain. 50c

Sanguineum. (The Blood-red Cranebill). A handsome plant of symmetrical habit, beautifully tinted in autumn. Large rosy lavender flowers in great profusion. Summer. 12 in. 30c

Sanguineum Lancastriense. Prostrate trailing foliage covered all spring and summer with lovely large flowers of softest pink. A satisfactory plant of high quality. 75c

Sanguineum Prostratum. Same habit as preceding, but with flowers of deep rose. 75c

Sessiliflorum. Large white blossoms on small tufts of pretty foliage. Chile. 35c

GEUM—(Avens). Full sun and rich loam.

Borisii. Large orange-scarlet flowers on short branching stems. 9 in. Summer. 35c

Chiloense Atrosanguineum. Attractive foliage and scarlet flowers. 12 to 14 in. Chile. 35c

Ciliatum. Lovely foliage and showy golden flowers. Spring. N. A. 40c

Fire Opal. Very large crimson flowers on 18 in. stems. One of the best. 50c

Heldreichii. A dwarf species from Greece. Lacquer-red flowers. 12 in. Summer. 35c

Lady Stratheden. Rich golden yellow flowers. 2 ft. May to August. 35c

Montanum. Dwarf alpine species. Large golden flowers followed by pink whorls of seeds. Summer. 50c

Mrs. Bradshaw. Large double scarlet flowers on 18 in. stems. 35c

Orange Queen. Exceptionally fine. Large double orange colored blossoms. 40c

Rivale Leonard's Variety. Lovely nodding flowers of soft old rose color. 12 in. Summer. Norway. 50c

Sibiricum. Large coppery-scarlet flowers. 10 in. Long season of bloom. 30c

each 10 for

Triflorum. Handsome dark green foliage and deep red flowers with white sepals. A striking plant and very rare. 6 in. N. A. 50c

GLOBULARIA

Bellidifolia. A charming little alpine having pretty fluffy heads of softest blue in spring. 3 in. 35c

Coridifolia. Dark little evergreen rosettes almost covered in June by fluffy soft blue flowers. 3 in. 25c

Incanescens. A little beauty with prostrate grey green foliage covered with lavender flower heads. 50c

Nudicaulis. A good crevice plant. Fluffy heads of grey-blue on 6 in. stems. Spring. 25c

Tricosantha. A choice little alpine with heads of deep blue flowers on 6 in. stems. 35c

GOODYERA—Pubescens. (Rattle-snake Orchid). Ornamental foliage and white flowers. 3 in. Spring. 20c

GORMANIA—Watsoni. Curious rosettes of succulent foliage. Golden blossoms in spring. 30c

GUTIERREZIA—Sarothrae. Little bushlets entirely covered with tiny golden blossoms all summer. Quite unique and attractive. 10 in. N. A. 35c

GYPSOPHILA

Acutifolia. Grey-blue foliage and clouds of pale pink flowers. 18 in. Summer. 25c

Cerastioides. Little inch high tufts of foliage bedecked with large white blossoms in spring. 3 in. Himalayas. 35c

Fratensis. Close mats of grey foliage covered with clear pink flowers in spring. A choice little plant. 50c

Repens. Blue-grey mats crowned with pretty white flowers in May and June. 6 in. 30c

Repens Rosea. Slightly larger flowers than the above of soft pink color. 35c

HABERLEA—Ferdinand Coburgi. Handsome clustered rosettes and charming lavender flowers speckled inside with gold. Spring. Balkans. Rare and choice. \$1.00

HEDERA

Baltica Variegata. Miniature variegated Ivy. Hardy. 50c

Conglomerata. A quaint little Ivy with tiny twisted stems. 10 in. 50c

Heart Shaped Ivy. A low growing Ivy with dark green heart shaped leaves. 50c

Helix Pedata. English Ivy. 50c

HELLEBORUS

Niger. (Christmas Rose). Deeply cut foliage. Large glistening white flowers in early winter. 75c

Orientalis. (Lenten Rose). Ornamental foliage and large rosy blossoms. February to April. 75c

each 10 for

HELIANTHEMUM—(Sunrose). Require full sun.

- Ben Nevis. New.** Small glossy leaves. Deep golden flowers with darker eye. Rare. 50c
- Citrinum.** Compact form with golden flowers. Spring—Autumn. 35c
- Cupreum.** Loose spreading mats covered with orange yellow flowers in spring. 35c
- Fire Ball.** Bright scarlet double flowers. Spring and fall. 30c
- Mutabile.** Rose flowers of good form. 50c
- New Bricks.** Brilliant terra-cotta flowers. Very fine. 50c
- Praecox.** Grey foliage with beautiful large pale pink flowers. Europe. 35c
- Speciosum.** A very distinct and unusual plant making flat mats of attractive foliage with large clear pink blossoms. Choice. 50c
- The Bride.** Large cream colored flowers. Spring. 35c
- Tuberaria.** An unusual plant with basal rosettes of glossy leaves and short spikes of large golden flowers. 35c
- Wendell Rose.** A very fine variety with a profusion of large rosy pink blossoms. One of the best. 50c

*Helianthemum*

- HEMEROCALLIS**—**Minor.** A dwarf Day Lily from Japan. Large fragrant golden flowers in late summer. 12 to 14 in. \$1.50

each 10 for

HEPATICA

Acutiloba. Violet blue flowers changing to white and rose.
Early spring. N. A. 25c

Triloba. Blue, rose, or white blossoms. Early spring. 25c

HERNIARIA — Glabra. Small carpeting plant of finely cut foliage with tiny white flowers in spring. Asia. 30c

HEUCHERA—(Coral-root, Satin-leaf).

Brizoides. Fine foliage. Dwarf habit. Pale pink flowers. 30c

Brizoides Robusta. A tall form with rose-colored flowers.
Long season. 35c

Girandole Compacta. A dwarf form with good foliage and dainty pink bells. 35c

Girandole Robusta. A large form of the above with rosy flowers all summer. 35c

Micrantha. Panicles of pink and white flowers in early summer. 18 in. 35c 3.00

Pluie de Feu. Large scarlet flowers over long season. 18 in.
A great favorite. 50c

Rosamonde. Large rosy bells on tall branching stems. .. 30c 2.50

Sanguinea. Coral pink flowers on 18 in. stems. 25c 2.00

Sanguinea Maxima. Improved form of the above with large bright red flowers. Long season. 35c

Sanguinea Var. Shirley. A splendid hybrid with bright red blossoms. 35c 3.00

Villosa. New. Mats of good foliage and panicles of pearly white flowers. N. A. 35c

HIERACIUM

Alpinum. Low tufts of woolly foliage. Large golden composite flowers. Rare. Sun and sandy soil. 50c

Bombycinum. A good crevice plant for sun. Woolly foliage and handsome golden blossoms. 50c

HOMALOBUS—Caespitosus. A spring blooming plant of great charm having short racemes of deep lavender flowers. 40c

HORMINUM—Pyrenaicum. Large rosettes of scalloped foliage from which rise 8 in. stems of lavender flowers. Pyrenees. 35c

HOUSTONIA—Caerulea. A creeping plant covered with small pale blue flowers in spring. N. A. 25c

HUTCHINSIA

Alpina. A true little alpine with mats of fine green leaves and myriads of dainty white flowers. 3 to 4 in. Shade. 30c

Brevicaulis. A smaller form of the above. 35c

each 10 for

HYPERICUM—(St. John's Wort). Sun or partial shade.

Ascyron. Large flowers of pale gold with prominent stamens.
2 ft. Summer. N. A. 40c

Barbatum. Grey green prostrate foliage and large golden
flowers with long stamens. 50c

Coris. A treasure from the Maritime Alps with clouds of
sparkling golden flowers. 6 in. 40c

*Houstonia*

Grandiflorum. A handsome plant with very large golden
flowers. 50c

Moserianum. A small shrub with bronzy green foliage. Large
golden blossoms with long stamens flecked with red. All
summer. 50c

Olympicum. Narrow blue-grey trailing foliage. Large yellow
flowers. Long season. 50c

Oriente. Yellow blossoms. Very free flowering. 50c

Patulum Henryi. Shrubby type with golden yellow flowers.
Summer. China. 50c

Polyphyllum. One of the brightest and best. Little 6 in. bush-
lets crowned with large golden stars in spring and again in
autumn. 35c

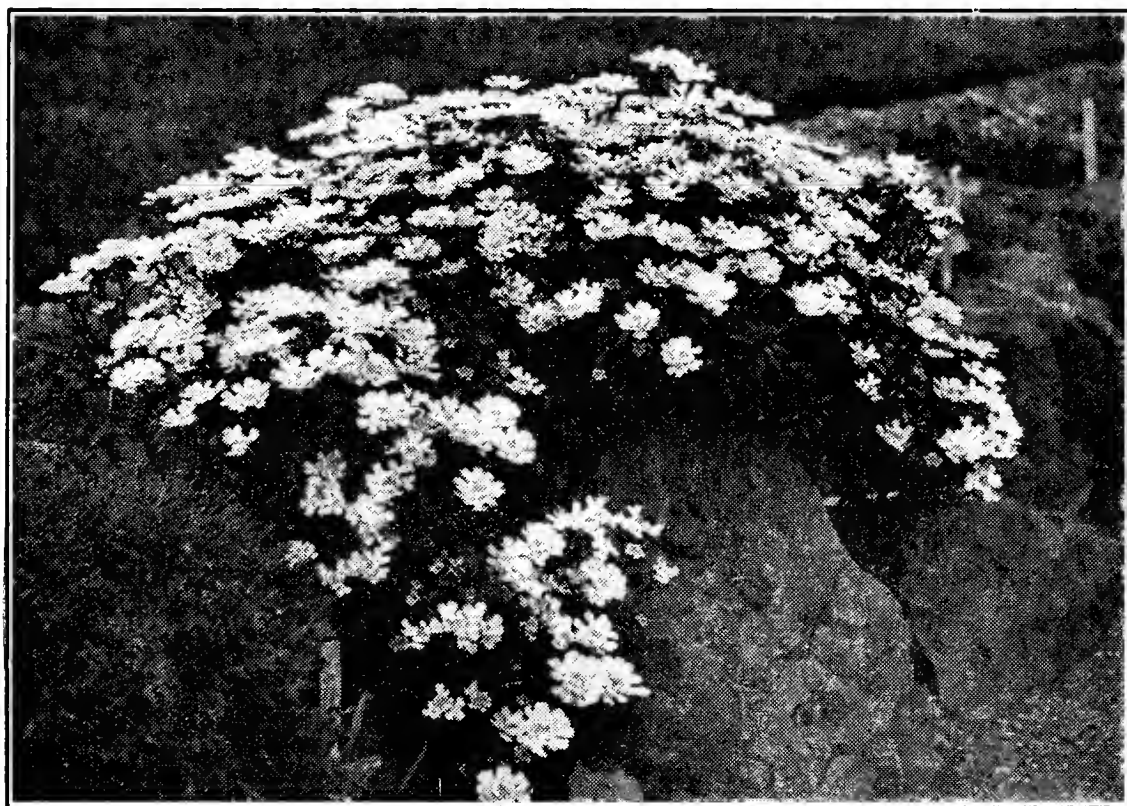

Repens. Prostrate growth. Brilliant yellow flowers. 4 in.
Summer. Asia. 35c

each 10 for

Reptans. Trailing foliage. Bright yellow blossoms. 35c

Tomentosum. Tomentose foliage and loose showers of golden stars. Summer. Spain. 35c

HYPOXIS — Hirsuta. (Star Grass). Narrow grassy foliage. Pretty yellow flowers in midsummer. 35c

Iberis Snowflake

IBERIS—(Candytuft).

Jordani. Close growing emerald green mats completely covered with starry white flowers in spring. 40c

Little Gem. Dwarf species of upright habit, crowned with pure white flowers. Spring. 35c

Sempervirens. Spreading evergreen mats and snowy white flowers. Spring. 25c

Snowflake. Glistening white flowers. Very fine. 35c

Veventosicola. A little spring beauty making clumps of dark green foliage spangled with white flowers. 3 in. A gem. 50c

INCARVILLEA — Grandiflora Brevipes. Large Gloxinia-like fuchsia colored flowers of striking beauty. 9 in. 50c

INULA—(Compositae).

Acaulis. A quaint rosetted plant with large stemless golden flowers. Long season. A choice rock plant. Full sun. .. 50c

Ensifolia. Compact bushlets with large yellow flowers in late summer. Poor soil and full sun. 30c

each 10 for

IRIS—The Iris mentioned below are dwarf forms suitable for the rock garden or front of border.

Arenaria. A very small Iris with large yellow flowers. Rare and choice. Mongolia. 3 in. 75c

Cristata. Large lilac blue flowers. 6 in. N. A. 25c 2.00

Iris Gracilipes

Cristata Alba. A rare white form of the above. \$1.00

Dichotoma. Fan-shaped foliage. Branching stems covered with lavender flowers in August and September. For the border or large rock garden. 2 ft. 50c

4.50

Fimbriata. (Japonica). Lovely orchid-like flowers of lilac and gold. 18 in. 50c

Gracilipes. A fascinating Japanese dwarf having grassy foliage and rather large delicate mauve flowers with golden crest. Partial shade. Choice. 50c

Hookeri. A rare dwarf having lilac flowers suffused with red. \$2.50

Minuta. A rare Japanese dwarf with grassy foliage and large golden flowers. 4 to 6 in. Spring. \$2.00

Missouriensis. New. A dwarf native Iris of great charm having lovely blue and sometimes variegated flowers. N. A. \$1.25

	each	10 for
Pumila Atroviolacea. A small bearded Iris with large rich purple flowers. 6 in. Spring.	35c	
Pumila Caerulea. Large blue flowers in May. 6 in.	35c	
Pumila Cyanea. Pretty early blooming species with large sky blue flowers.	30c	
Pumila Lutea. Fine yellow blossoms in early spring. 6 in.	30c	
Reticulata. Beautiful velvety purple flowers flecked with gold. Fragrant. Early spring. 9 in.	35c	

Violas and Iris Gracilipes

Sibirica. A showy and easy garden plant having well shaped delightful deep blue flowers in June. 2 ft.	25c	
Sintenisii. Beautiful violet flowers. A rare species.	\$2.50	
Verna. An early blooming dwarf with exquisite fragrant blue flowers. Partial shade. N. A.	30c	2.50

JASIONE

Montana. Heads of blue flowers on 6 in. stems. Summer. Europe.	35c	3.00
Perennis. Fluffy heads of bright blue flowers. 12 in. All summer	30c	2.50

NIEREMBERGIA—Rivularis. The trailing Cup-Flower. Inch high carpets of dark green leaves and large pearly white cups in the greatest profusion. All summer and early autumn. 3 in. A good carpenter. Sun.	35c	

each 10 for

OENOTHERA

Caespitosa. A plant of striking beauty having large glistening white flowers turning to blush pink. 4 in. N. A. See illustration. 50c

Fruticosa Major. Glossy foliage and golden flowers over a long season. 25c 2.00

Fruticosa Youngii. Large shining foliage. Showy yellow flowers. Summer. 18 in. 25c 2.00

Missouriensis. (Macrocarpa). A fine trailing species with large golden blossoms all summer and autumn. N. A. 35c

Trichocalyx. Blue-green linear foliage. Large fragrant white flowers. 12 in. N. A. 50c

Oenothera Caespitosa

OMPHALODES

Verna. (Creeping Forget-me-not). A charming Austrian having large drifts of blue flowers in early spring. 4 to 6 in. 35c

Verna Alba. A pretty white form of the above with larger flowers. 50c

ONONIS

Rotundifolia. Dwarf shrub of great merit with pretty foliage and unusual rose colored flowers in early summer. 12 in. Rare. N. A. 75c

Spinosa. A small bush having beautiful pink mauve flowers in midsummer. Rare and fine. Europe 75c

each 10 for

ORIGANUM — Vulgare. (Marjoram). Aromatic grey-green foliage and spikes of attractive lavender-pink flowers. 6 in. Summer. N. A. 25c

OROBUS — Vernus. New. A charming plant with satiny lavender flowers. 6 in. 50c

OROPHACA — Caespitosa. Small tufts of silvery foliage. Lavender blossoms. A native alpine gem. Spring. 75c

OXALIS

Adenophylla. A rock garden gem of great beauty. Finely cut silvery foliage and large blossoms of softest pink. 3 in. Sandy soil and sun. 75c

Bowiei. (Purpurata). A handsome plant with trifoliate leaves and large purple flowers. Summer and autumn. 6 in. 35c

Floribunda Alba. (Wood Sorrel). Mats of "shamrock" foliage covered from spring until autumn with an endless succession of pretty white flowers. Needs winter protection. 50c

Tropaeloides. Little miniature mats of bronzy red foliage covered all summer and autumn with dainty yellow flowers. Useful for planting among *Gentiana acaulis* and for paving. 25c 2.00

OXYTROPIS — Lambertii. Foliage low, grey and pinnate. Showy erect spikes of blossoms in shades of violet to light blue. Spring. 50c

PACHYSTIMA—Canbyi. A beautiful little trailing plant with glossy green foliage and waxy pink flowers. N. A. 50c

PAPAVER

Alpinus. Dwarf form with flowers of rose, white, yellow, or orange. All summer. 25c

Pilosum. Handsome species with large salmon colored flowers. All summer and autumn. 35c

PARDANTHUS—Chinensis. (Blackberry Lily). Spotted flame colored flowers and black seeds in autumn. N. A. 35c

PARNASSIA — Foliosa. New. Densely clustered ornamental foliage and beautiful large white flowers with fringed petals. A lovely rarity from Japan which received an Award of Merit from the R. H. S. \$1.00

PARONYCHIA—Serpillifolia. An attractive carpeting plant with heads of white flowers. Europe. 35c

PAROSELA—Enneandra. An unusual and most engaging plant sending up one slender stem about 15 in. which breaks out at the top into a shower of delicate green foliage like a tiny parasol. Covered in August with tiny pink flowers. Rare. 75c

PENTSTEMON — There are many beautiful plants in this American genus which add greatly to the beauty of planted walls and rock gardens. They are easily grown if given good drainage and a situation in full sun or partial shade.

Amethyst Gracilis. A spreading form having large true amethyst colored flowers. N. A. 35c

Arizonicus. An attractive form with glabrous foliage and purple flowers. 8 in. N. A. 30c

Confertus Purpureo—Caeruleus. A mountain species of compact growth forming mats. The flowers are white tubes tipped with blue. 6 in. 50c

Fruticosus. An evergreen shrublet from the Rockies having large violet colored blossoms in early summer. 50c

Glaucus. Large violet bells on procumbent stems. A fine little shrub of 12 in. from the Rockies. 50c

Gracilis. A very desirable small species covered with deep lavender flowers in summer. N. A. 50c

Heterophyllus. A dwarf species with evergreen foliage. Pink buds opening into light blue flowers. Summer. N. A. .. 35c

Hirsutus. Downy foliage and beautiful blue flowers. 18 in. N. A. 50c

Humilis. Dwarf shrubby growth and blue and white flowers. 40c

Menziesii. An evergreen creeper with very small leaves and little spikes of charming blue flowers. Spring. 6 in. N. A. 50c

Menziesii Var. Davidsonii. A fine hybrid of the above. .. 35c

Pinetorum. New. A handsome tall form covered in summer with sky blue and pink flowers. N. A. 50c

Procerus. Close mats of bright green foliage with heads of deep blue flowers. May to July. 8 in. N. A. 25c

Procerus Tolmei. A fine hybrid form of the above. 50c

Pubescens. Attractive foliage. Pale blue, mauve, and white flowers in late summer. 18 in. N. A. 25c

Pygmaeus. Dwarf habit. Clear blue flowers with white lip. 4 in. 50c

Richardsonii. A rare form with bright green foliage and loose panicles of rosy flowers. 18 in. N. A. 50c

Rupicola. A rare and beautiful little shrub of dwarf compact habit and attractive foliage. Bright red flowers. 4 in. Spring. N. A. 50c

Scouleri. Evergreen shrublet of graceful habit. Large violet colored flowers. Farrer says "The most magnificent of all shrubby Pentstemons." 75c

Torreyi. A tall form with spires of rose colored flowers all summer. 2 ft. 30c

Unilateralis. A beautiful border plant of erect habit suitable for the background of the rock garden. Tall stems covered with lovely pink and mauve flowers. When planted in groups they give the effect of a rainbow. 2½ to 3 ft. Long blooming season. Summer. N. A. 40c

- each 10 for
- PERNETTYA (Ericaceae)—Mucronata Rosea.** A dwarf evergreen shrub with handsome foliage and very large rose-colored ornamental berries, which follow the pale pink flowers. Partial shade and peat. S. A. 75c

Ferrugineum. (Series Ferrugineum). The famous Alpenrose of the Swiss Alps. Glossy leaves about 1 in. long and terminal racemes of lovely rosy pink flowers in spring. **\$2.00**

Rhododendron Racemosum

Hirsutum. (Series Ferrugineum). A downy-leaved Alpenrose similar in flower to the above and will grow as easily in lime as in acid soil. **\$2.00**

Impeditum. (Series Lapponicum). Very dwarf and compact habit. A dense grey leaved shrublet with charming lavender flowers. Yunnan. **\$1.75**

Keiskei. (Series Triflorum). A low compact shrub covered in spring with pale golden flowers. Japan. **\$2.50**

Mucronulatum. (Series Dauricum). An Asiatic dwarf of deciduous habit covered in spring with bright pink flowers. **\$3.00**

each 10 for

Oleifolium. (Series Virgatum). Somewhat resembling *R. racemosum* in habit with lovely clusters of pale pink flowers. Yunnan. **\$2.25**

Racemosum. (Series Virgatum). A low semi-prostrate shrub of curious habit clinging to the contour of the rocks and densely covered in spring with racemes of exquisite pale pink flowers. China. **\$1.75**

RODGERSIA — Sambucifolia. Introduced from China by Wilson. Large fern-like foliage with tall panicles of fine white flowers. For background or border. Sun. Rare. **50c**

ROSA

Foliolosa. A charming dwarf rose with single white or pale pink blossoms produced through summer and autumn in great profusion. N. A. **50c**

Nitida. Pretty low growing bush rarely exceeding 18 in. Handsome glossy foliage and bright rosy-red flowers. N. A. **50c**

Polyantha Nana. Dwarf. Charming pink semi-double blossoms. **\$1.00**

Roulettii. The smallest alpine rose in the world, seldom exceeding 6 in. in height. Tiny evergreen foliage and pretty pink blossoms all summer and autumn. True form. **50c**

RUELLIA—Occidentalis. Large violet flowers on 8 in. stems. Summer. **35c 3.00**

SAGINA—Subulata. Mossy ground cover for shade. White starry flowers in May and June. **30c 2.50**

SALOMONICUS—Chiliensis. A small Irid with intense golden blossoms over a long period. Rare. **75c**

SANTOLINA

Incana. Fragrant herb with silvery foliage and golden flowers. Summer. Full sun. **25c 2.00**

Pinnata. A shrublet having very effective bright green ferny foliage. Pale yellow flowers in summer. A very attractive plant. 10 in. **New. 35c**

SAPONARIA

Caespitosa. Close growing foliage crowned with rosy buds and bright pink flowers in spring. Pyrenees. 3 in. **New. 50c**

Ocymoides. A pretty trailer with masses of pink flowers in spring. **25c 2.00**

Ocymoides Alba. A very attractive white form of the above. **New. 35c**

Ocymoides Versicolor. Beautiful trailer with pink and white flowers. **35c**

SATUREA

Montana. A small aromatic shrub from Dalmatia entirely covered with pretty mauve flowers in late summer. 6 in. **35c 3.00**

Pygmaea. **New.** A tiny bushlet with dark green foliage crowned with soft mauve flowers in late summer. **40c**

each 10 for

SAXIFRAGA—(Saxifragaceae). No rock garden is complete without a collection of these interesting and beautiful alpiners. Their requirements are good drainage and a soil composed of leafmold, loam, a little well decayed cow manure and sand. All types and varieties require partial shade in the Eastern section of this country. They should receive a good top dressing of the above mentioned soil mixture in the spring and autumn, and a light covering of salt hay during the winter.

*Saxifraga*

EUAIZOONIA GROUP—(Encrusted Varieties). These form rosettes of narrow and spatulate shaped leaves, heavily encrusted with lime in most cases, and are extremely ornamental in the rock garden.

Aeizoon Alba. White blossoms, 4 to 6 in. 30c

Aeizoon Rex. Handsome rosettes of foliage beaded with silver. Mahogany red flower stems bearing large creamy-white flowers. \$1.00

Aeizoon Rosea. Sprays of lovely pink blossoms. 9 in. Rosy form of above. 35c

Aeizoon Balcana. Pale green leaves. Sturdy red stems about 5 in. high bearing large flowers densely covered with crimson dots. 35c

Aeizoon Flavescens. Yellow flowers. Choice. 35c

each 10 for

- Altissima.** Handsome rosettes of blue-grey with silver beading. Creamy white flowers in branching pyramids of blossom. 50c
- Cochlearis.** Tiny silvery rosettes of tongue-shaped leaves. White flowers. Fine. 60c
- Cochlearis Minor.** Tiny domes of silvered rosettes. White flowers. 75c
- Cotyledon Pyramidalis.** Broad-leaved rosettes; large spires of pure white flowers, flecked with pink. 75c
- Elliott's Silver.** Splendid hybrid with heavily silvered rosettes in close clustered form. 50c
- Engleri.** Rosettes of silvery leaves. Plumes of white flowers 75c
- Gaudini.** Large leathery rosettes, often tinged with red. Sprays of pink spotted flowers. 50c
- Hostii.** Handsome rosettes of long leaves with toothed margins. Panicles of creamy white flowers spotted with pink. Europe. 50c
- Lingulata Albida.** Distinct form. White flowers. 75c
- Lingulata Bellardi.** Rare treasure. Beautiful white flowers. 50c
- Longifolia.** Handsome rosettes of silvery grey. Large spires of white blossoms from 2 to 3 ft. tall. "Queen of the Saxifrages." Pyrenees. \$1.00
- Macnabiana.** Fine spikes of white flowers heavily spotted with pink dots. 35c
- Mixed Encrusted Varieties.** 30c
- Portae.** Beautiful hybrid with attractive rosettes of narrow leaves and a profusion of white blossoms. \$1.00
- Pyrenaica.** Pointed leaves. Short plumes of white flowers. 50c
- KABSCHIA GROUP**—(Cushion Rockfoils). Small spiny foliage in shades of lovely blue-grey. To be used in moraine, or crevice between two rocks. All are early bloomers, and like warm, half sunny situation, in gritty soil and leafmold.
- Apiculata.** Mats of green spiny foliage. Yellow blossoms. Early spring. 40c
- Boryi.** Compact plant with thick rounded leaves edged with silver. Large flowers of pure white. 75c
- Burseriana Magna.** Compact little grey spiny cushions with extra large glistening white flowers. One of the best. Early spring. \$1.00
- Ferdinandi-Coburgi.** Neat cushions of silvery-grey. Bright yellow flowers. Spring. 40c
- Godseffi.** Blue-grey rosettes. Yellow flowers. Spring. 50c
- Haagei.** Clusters of dark green spiny foliage. Bright golden flowers on short stems. 60c
- Petraschii.** Tight silvery cushions. Large glistening white flowers. Early spring. 75c
- Sancta.** Bright yellow flowers in spring. 75c

each 10 for

DACTYLOEIDES GROUP—(Mossies). These form cushions and mossy mats and are very effective in shady spots. Require leaf soil and sand and appreciate an extra mulch in spring and autumn. Easy growers in shade.

Affinis. (The Dovedale Moss). Emerald green mats and clouds of white flowers in spring. Europe. 35c

Ceratophylla. (Tiny Staghorn). Mats of shiny foliage and pure white flowers. 35c

Decipiens Alba. Finely cut foliage and charming white flowers all spring. 30c

Decipiens Rosea. Lovely pink form of the above. 30c

Decipiens Mixed. Many fine hybrid forms. 25c

Guildford Seedling. Bright crimson hybrid. 35c

H. S. Stokes. Compact habit. Bright carmine flowers. .. 35c

Saxifraga Petraschii

ROBERTSONIA GROUP—(London Pride). This section embraces the well known London Pride and its immediate relatives. They all have attractive foliage and dainty flowers. Shade and leaf soil.

Andrewsii. Rosettes of green foliage. Pink and white flowers. 75c

Cuneifolia. Good foliage and dainty white flowers on 6 in. stems. Alps. 75c

Umbrosa. (London Pride). Attractive rosettes and sprays of pink flowers. 35c

Umbrosa Primuloides. Little mounds of rosetted foliage. Sprays of pink flowers. 35c

	each	10 for
MEGASIA GROUP —(Large Leaved Rockfoils). These have large ornamental foliage of dark green which turns crimson in autumn. They are particularly effective as accent notes in the rock garden. Sun or shade.		
Cordifolia. Large glossy green leaves richly tinted in autumn and winter. Heads of soft pink flowers in early spring. 35c		
Megasia Hybrids. Fine strain with large glossy leaves and showy pink flower spikes in spring. 35c		3.00
SCABIOSA		
Caucasica. Large lavender flowers on 10 in. stems. Summer and autumn. Caucasus. 30c		2.50
Caucasica Alba. Large heads of snowy white flowers all summer. Caucasus. 35c		
Graminifolia. Small clumps of grassy foliage. Large rosy lavender flowers on 6 in. stems. 50c		
Parnassii. Compact mounds of soft grey foliage covered with silvery pink flowers on 6 in. stems all summer. Sandy soil and full sun. Choice. 50c		
SCUTELLARIA		
Alpina. A spreading plant 8 to 12 in. high with large purple and white flowers. Summer. 35c		3.00
Angustifolia. Mats of green foliage and large deep blue flowers blooming all summer. 50c		
Indica Japonica. Delicate soft grey foliage and charming blue flowers. Spring. 50c		
Orientalis. Semi-prostrate grey-green foliage and yellow flowers. Long season. 35c		
Resinosa. Semi-prostrate plants with most attractive foliage covered with pretty blue and white flowers all summer. 50c		
SEDUM —These are supposed to be sun loving plants, but many of them do just as well in partial shade. Their carpets in various shades of green assume brilliant colorings of reds and purples in autumn.		
Acre. Evergreen carpenter. Yellow flowers. 25c		2.00
Acre Elegans. Attractive carpenter for paths. Bright yellow flowers. 30c		2.50
Acre Golden. Neat golden mats. 25c		2.00
Acre Minus. A miniature of S. Acre. 35c		
Album. Tufted habit. White flowers on 6 in. stems. Summer. Europe. 25c		2.00
Altissimum. Blue green foliage. Yellow flowers on 9 in. stems. 25c		2.00
Anacampseros. Grey-green leaves. Purple flowers. 35c		3.00
Anglicum. Creeping evergreen mats. Blush flowers. Summer. Western Europe. 25c		2.00
Corsicum. Tiny grey-green foliage and pink flowers on 2 in. stems. 25c		2.00
Crassipes. Often wrongly called S. Asiaticum. Yellow-white flowers. 6 in. Asia. 50c

Spathulifolium. Evergreen rosettes of curious shape and yellow flowers. Very fine.	35c	
Spathulifolium Rubrum. Glowing red foliage and bright yellow flowers. Very choice.	50c	
Spectabile. An erect growing species from Japan. Large flat heads of lovely mauve colored flowers on 12 in. stems in September.	25c and 50c	
Spéctabile Brilliant. Red flowering form of the above.	35c and 50c	
Spurium. A splendid ground cover. Bright pink flowers.	25c	2.00
Stenopetalum. Close tufted foliage and yellow flowers in June.	35c	
Stribyrni, New. Rare and unusual plant from Bulgaria. Bright yellow flowers in July. 3 in.	35c	
Tenuifolium. Clustered mats of pale green. White star shaped flowers. Rare.	35c	
Ternatum. Broad tufted foliage. Pure white flowers. Rare. N. A.	35c	
Yosemitense. Rosettes of silvery blue. Golden flowers. 4 in. A gem.	50c	
SEMPERVIVUM —Interesting plants of easy culture for sunny situations. Soil should be a light loam containing sand, well rotted manure, leafmold and stone chips. The majority of these plants change their form to some extent in different situations making it rather difficult to classify them correctly.		
Acuminatum. Small type. Pale green sharp pointed rosettes.	25c	
Alberti. Pale green rosettes. Rose colored flowers. Rare.	30c	2.50
Alpha. Very fine and rare type. Large rosettes.	75c	
Arenarium. Small type with green rosettes. Large cream colored flowers on 2 in. stems.	25c	
Arachnoideum. Pale purple flowers on cobweb covered rosettes.	25c	2.00
Arachnoideum Minimum. Smallest of the cobweb types.	35c	
Beta. Rare. Large rosettes of peculiar habit. Very interesting.	60c	
Braunii. Small rosettes of pointed leaves. Slender 4 in. stems carrying a cluster of bright yellow flowers.	25c	2.00
Doellianum. Loose rosettes. Dull pink flowers.	30c	
Dolomiticum. Small dense rosettes. Acute leaves with hairy edges. Broad rose petals.	35c	
Fimbriatum. Small rosettes of pointed leaves. Bright pink flowers.	25c	
Globiferum. Tight green rosettes tipped with red.	15c	1.00
Greenii. Large green rosettes.	50c	
Juratense. Very flat rosettes. Bright green leaves with outer edge reddish brown. Very fine.	75c	
Lown's No. 60. Medium rosettes suffused with red.	50c	

each 10 for

- Mettenianum.** One of the prettiest. Medium rosettes, grey green, tipped with red. Rose flowers. 25c
- Minto Seedling.** Very rare hybrid. Large rosettes. Deeply tinged with red. 75c
- Pittoni.** Medium-sized rosettes, with a downy surface to the leaf. Pale yellow flowers. Scarce. 50c

Sempervivums

- Pyrenaicum.** Pale rose flowers in wide heads. From the Pyrenees. 50c
- Mixed Varieties.** Unnamed. dozen \$1.00, hundred \$8.00
- Rubicundum.** Large rosettes of reddish color. 50c
- Soboliferum.** Pretty golden rosettes. 15c 1.00
- Tectorum.** (Common Hen and Chickens or Roof Houseleek). Rosettes 3 to 4 in. across. Flowers pink-red. 25c 2.00

SENECIO

- Antennarifolius.** Silvery foliage with brilliant golden blossoms. Spring. 40c
- Incanus.** Rare. Silvery grey foliage and masses of deep golden flowers during July and August. Alps. 50c
- SHORTIA—Galacifolia.** (Oconee Bells). Perhaps the prettiest little evergreen for shady spots in the rock garden. Glossy leaves and fringed white bells. N. A. 30c 2.50

	each	10 for
SIBBOLDIA — Procumbens Grandiflora. Pale green carpeter for shade.	35c	3.00

SIDERANTHUS—Spinulosus. Low growing bushy plants with grey foliage. Masses of golden daisies all summer and autumn. Very attractive. N. A.	40c	3.50

*Silene***SILENE**

Acaulis. (Moss Campion). Cushions of emerald green studded with countless pretty pink flowers. Partial shade. 35c

Alpestris Grandiflora. Showers of white flowers with fringed petals. 6 in. Summer. 35c 3.00

Maritima. Fl. Pl. Blue-grey foliage. Large crinkled white blossoms all summer. 30c 2.50

Maritima Rosea. A very attractive pink form of the above. 35c 3.00

Saxifraga. Mossy growth. Masses of white flowers in summer. 30c 2.50

Schafta. Showy rose-colored flowers in late summer. 6 in. Caucasus. 25c 2.00

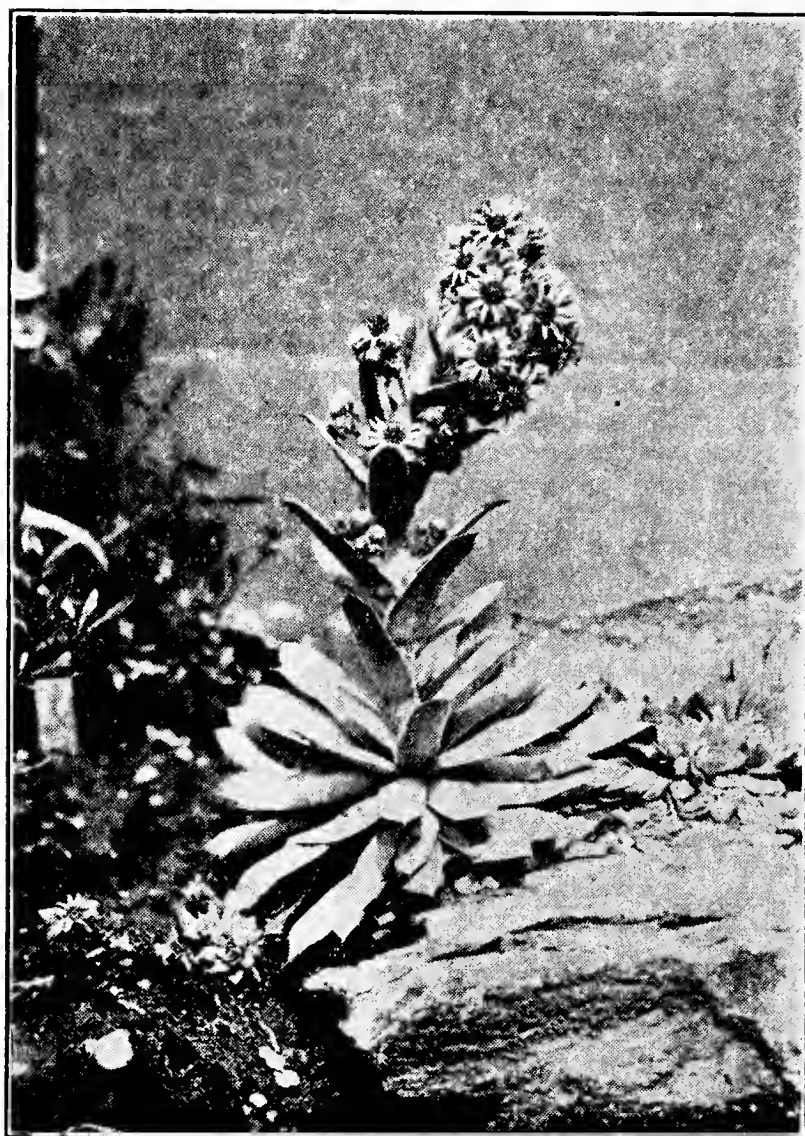

Virginica. (Fire Pink). A semi-prostrate plant having rich red velvety flowers in spring. 35c

*A*LL GARDEN CLUBS desiring to visit our Rock Gardens are requested to notify us a week in advance in order that a day may be reserved. It will be of interest to those who were here in 1934 to see the new additions which have been made to our Rock Gardens as well as our new **Japanese Garden.**

Rosa Rouletti

*T*HROUGH careful selection we are prepared to offer plants which will flourish in rock gardens in any section of the United States, no matter what the climatic conditions may be.

Sempervivum

WE OFFER only strong healthy plants, grown according to the most scientific cultural methods, thoroughly seasoned and hardened by the severe climatic conditions of New England; hence their growth and cultivation present few difficulties when transplanted into other gardens.

Cultural advice freely given.

each 10 for

SISYRINCHIUM

Bellum. Grassy foliage and rather large blue flowers all summer. A good form of the well known blue-eyed grass.

35c

Californicum. Tufts of grassy foliage and clear yellow flowers in June. Sand and shade.

35c

3.00

Gramineum. Delicate blue flowers all summer.

35c

3.00

Varians. Light blue flowers. N. A.

35c

SOLDANELLA—Alpina. A lovely little alpine with violet bells in early spring. 3 in. Shade.

50c

SOLIDAGO

Cutleri. A true alpine Goldenrod. Compact tufts of dark green foliage with heads of bright golden flowers. 6 in. Summer.

50c

Glaberrima. An interesting and effective dwarf Goldenrod with large panicles of golden yellow flowers in late summer and autumn.

50c

Rigida. An attractive dwarf plant with heads of golden blossoms in late summer.

35c

Virgaurea. A handsome European form of taller habit. ..

35c

Wardii. Another dwarf form with smaller panicles of fragrant yellow flowers. Late summer.

35c

SPARAXIS—Pulcherrima. (Angel's Fishing Rods). An unusual bulbous plant with Iris-like leaves and arching stems ending in beautiful lavender bells. Hardy.

50c

SPIREA

Bullata. New. A dwarf shrublet from Japan. Small crinkled foliage and little flat corymbs of rosy flowers in summer. 12 in. Choice.

\$1.00

Lucida. A rare and very charming little shrublet having shining pale green foliage and little flat heads of white flowers. 8 in. Summer. N. A.

\$1.00

STACHYS

Coccinea. Rose colored flowers on 8 in. stems. A showy plant.

35c

Corsica. Neat little mats of emerald green. Profusion of pale pink flowers all summer. Sun.

35c

Lanata. Velvety white foliage. Lavender flowers. 12 in. Caucasus.

25c

2.00

STATICE

Armeria. Grassy foliage and pink flowers all summer and autumn. N. A.

35c

Bellidifolia. A fine dwarf with rosettes of green leaves and sprays of dainty lavender flowers.

Occidentalis. Soft blue flowers all summer. A smaller form of T. Virginica.		
Virginica. An old garden favorite. Blue flowers all summer. 2 ft. N. A.	25c	2.00
Virginica Alba. Slightly dwarfer in height than T. Virginica. Very large papery white flowers all summer. N. A.	25c	2.00
TRILLIUM — Grandiflorum. Large glistening white flowers. Very fine. Spring.	25c	
TROLLIUS		
Europaeus. Large yellow globe flowers. A plant of the Alpine meadows.	30c	2.50
Sinensis. A fine type for borders. Tall variety with golden yellow flowers. China.	25c	
TUNICA		
Saxifraga. A dainty tufted plant with light pink flowers all summer. 6 in.	25c	2.00
Saxifraga Fl. Pl. A double flowering form of the above. Flowers resemble tiny pink roses. All summer.	50c	
ULEX—Europaeus. Spiny shrub with fragrant yellow flowers in summer. Europe.	25c	
UMBELLICUS—Chrysanthus. Masses of pale green rosettes. Stars of yellow rayed with red.	25c	2.00
VERBENA		
Alpina. A semi-procumbent plant of rather compact habit. Heads of pale pink flowers. All summer and autumn. A new and exquisite plant.	50c	
Bipinnatifida. Trailing mats of good foliage and masses of lavender flowers all summer and autumn. Sun and sandy soil. Uncertain hardiness, but well worth having.	35c	
Bracteosa. An effective plant with showy lavender flowers all summer.	40c	
Canadensis. Masses of pink flowers on 12 to 18 in. stems. All summer.	35c	
Tenera Maonetti. A trailing plant of outstanding beauty with striking wine colored flowers flecked with white. Always in demand. Rare. First time listed.	50c	
Venosa. Deep heliotrope flowers on 8 in. stems. Summer and autumn.	35c	
VERONICA		
Amethystina. Fine border plant with charming blue flowers. Long season. Asia.	30c	2.50
Austriaca. Another border form with 18 in. spikes of large bright blue flowers. Long season.	25c	
Chamaedrys. Racemes of bright blue flowers. 18 in.	30c	

	each	10 for
Filiformis. Mats of daintiest apple green foliage covered in spring with tiny orchid-like mauve flowers. An excellent ground cover in shade or sun. Will grow in places where it is difficult to raise grass.	25c	2.00
Gentianoides. A handsome plant for the border or large rock garden. Spires of pale blue flowers in spring.	30c	2.50

Cronamere Rock Garden

Hookeri. New. Dwarf shrubby type. Profusion of white flowers flecked with blue. 6 in.	50c	
Incana. Handsome tufts of silvery grey leaves and sapphire blue flowers. 6 in.	30c	2.50
Pectinata Rosea. Prostrate green foliage and bright pink blossoms.	35c	3.00

	each	10 for
Prostrata. Lovely trailing species. Brilliant blue flowers. Asia.		
	30c	2.50
Prostrata Nana. New. A tiny close-growing species. Brilliant blue flowers. Good paving plant.	35c	3.00
Repens. Trailing species. Large pale blue flowers. Corsica. Spring.	25c	2.00
Repens Rosea. Bright green mats covered with soft pink blossoms.	30c	2.50
Rupestris Heavenly Blue. A pretty mat forming plant with intense blue flowers.	30c	2.50
Rupestris Nana. A smaller form of the above with masses of deep blue flowers.	35c	3.00
Rupestris Rosea. Pretty trailing mat forming plant with spires of soft pink flowers in spring.	35c	3.00
Satureioeides. Trailing mountain species. Dark leathery foliage and generous heads of blue flowers. Long period of bloom.	35c	
Saxatilis. Spreading habit. Large blue flowers with ring of red. Spring and early summer. Greenland.	35c	3.00
Spicata. English variety. Dark green foliage and spikes of sapphire blue flowers. All summer and autumn.	25c	2.00
Spicata Nana. A favorite rock plant of small tufted habit and bright blue flowers. Choice. 5 in.	35c	3.00
Teucrium Royal Blue. Dwarf bushy habit. Bright blue flowers. Excellent rock plant.	35c	
Teucrium Trehanii. A low growing plant with bright golden leaves and spikes of sapphire blue flowers which make a pleasing contrast with the yellow foliage.	35c	3.00
VINCA—Minor. (Myrtle). Trailing evergreen. Bright blue flowers. Fine ground cover in sun or shade.	15c	

VIOLA

Admiration. Rich purple flowers. Profuse bloomer.	25c	2.00
Apricot. Compact and free flowering. Beautiful apricot colored flowers shading yellow.	25c	2.00
Blanda. Close-growing habit. Sweet scented white flowers with blue eye. Spring. N. A.	35c	
Bosniaca. A rare little alpine with small matted foliage covered all spring and summer with brilliant rosy mauve blossoms of unusual charm. A great favorite.	35c	3.00

Tsuga Diversifolia, 10 to 12 in.	3.00
Tsuga Microphylla, 12 to 15 in.	3.00
Tsuga Sargentii, 18 to 24 in.	5.00

THE PERFECT GARDEN LABEL

Ordinary lead pencil markings on these labels are permanent in all garden conditions, above the soil or buried. This feature has been thoroughly tested.

The material is indestructible. The beautiful gray-green color blends perfectly with foliage, soil and rocks. They should be set deep in the soil with only the marking space showing. Thus they are inconspicuous. They do not spoil the garden picture and do not interfere with weeding and cultivating.

The ample marking space is horizontal for easy reading but any part of the label may be used for extensive notes. Markings are erasable with pencil eraser.

Tie-On labels are supplied with copper wires in convenient bundles ready bent for attaching.

PRICES

		12	25	100	500
Perfect Border Label	(5")	\$1.00	\$2.00	\$7.75	\$37.50
Perfect Rock Garden Label	(4")	.90	1.75	6.75	32.50
Perfect Show Garden Label	(7")	1.25	2.50	9.50	45.00
Perfect Tie-On Label ($\frac{3}{4}$ " x $3\frac{1}{2}$ ", with wires)				3.00	15.00
Perfect Pot Label	($\frac{3}{4}$ " x 4", tapered)			2.00	12.50

IMPORTANT PERIODICALS FOR THE ROCK GARDENER THE AMERICAN HORTICULTURAL SOCIETY

Publishes for its members a quarterly magazine in which are many articles and pictures of plants that should be known to all rock gardeners. You are cordially invited to join by sending your check for three dollars to the Secretary, Mr. C. C. Thomas, 211 Spruce Street, Takoma Park, D. C.

GARDENERS' CHRONICLE OF AMERICA

Reliable information on all phases of gardening, with special emphasis in each issue on rock gardening, alpine and native plants suitable for the American rock gardens. Published at 522 Fifth Avenue, New York, N. Y. Subscription two dollars a year.

GARDEN DIGEST

We have for several years highly recommended Garden Digest to our customers. It is one of the most useful and interesting magazines. It is pocket size. Just enclose a dollar bill to us or add one dollar to your order and we will see that Garden Digest is sent to you monthly for a whole year.

HORTICULTURE

Published semi-monthly at Horticultural Hall, Boston, Mass. Subscription rate—one year, in advance \$1.00.

We recommend "PIONEERING WITH WILDFLOWERS" by George D. Aiken as being a splendid book for those interested in wildflowers. We will send this book postpaid for two dollars.

Japanese Garden in "Gardens of the Nation," 11th Floor, Rockefeller Center, New York City, where you will find our representative.
